

FCC,

This is in reference to 04-233 Dealing with the LPFM proposed rule change. K-Love brings calm to a hectic world and I know the communities in which they serve great help. With all of the objectionable material on the radio, and being told that it's "free speech", it is getting harder for parents to find channels that are family friendly. Since I am not able to block out radio stations as I am with TV stations, I find it refreshing to know that stations such as K-Love are there. This ruling could affect them in a negative way, which would affect families trying to help their children make better choices.

Our community supports K-Love we have to in order to keep it here since they don't receive Ad dollars. Which should show you that there is a need and a desire to keep K-Love.

Please accept this comment and please consider it.

Thank You

Kevin Sailer
